15th Annual Hyman P. Minsky Conference

on the State of the U.S. and World Economies

Economic Imbalance:
Fiscal and Monetary Policy for Sustainable Growth

Thursday–Friday, April 21–22, 2005

Blithewood

Annandale-on-Hudson, New York

GOAL

This year’s Minsky conference will draw upon public discussions on the state of the U.S. and world economies in the context of current economic trends and their implications. Topics to be discussed at the conference include fiscal and monetary policies for continued growth and employment; brutal gyrations in the currency markets and the consequent exchange-rate misalignments, as well as possible cures; and the U.S. trade deficit, particularly its impact on employment and the conduct of monetary and fiscal policies. The international economic role of the United States will be examined in view of the current international economic landscape.

Further program and registration information will be posted on the Levy Institute website (www.levy.org) as it becomes available.
