

economists for full employment

A PROJECT OF THE
LEVY ECONOMICS INSTITUTE

www.economistsforfullemployment.org

member institutions...

we are...

a group of economists working towards building a global informal network of academics, policy advisors, institutions, advocates and members of government, committed to the realization of the *right to work...*

we are committed to...

joining forces with all who foster public dialogue and seek to promote employment guarantee around the world. Together, we can provide coherent, viable policy alternatives that lead to inclusive and just outcomes for all...

WHY a NETWORK?

Fostering Synergies and Information Access

Right to Food Campaign (India)

Center for Full Employment and Equity (Europe)

Zero Unemployment Campaign (Brazil)

Expanded Public Works Programme (South Africa)

Jobs Letter (New Zealand)

National Jobs for All Coalition (USA)

National Rural Employment Guarantee Act (India)

Supprimer le Chômage (France)

ILO Employment Intensive Investment Programme (EIIP)

Engineers Against Poverty (UK)

We aim to...

- Promote public dialogue and build towards a worldwide campaign**
- Leverage and influence the policies and programs of development agencies and financial institutions for improved employment outcomes.**
- Build communities of learning and foster public awareness on existing country level experiences.**
- Engage in teaching and policy oriented research**
- Explore linkages between development, poverty reduction and macroeconomic coordination policies**
